LIST OF CONTENTS

VOLUME 43

NUMBER 1

C. A. Mandato, W. L. Diehl-Jones, S. J. Moore and R. G. H. Downer	1	The effects of eicosanoid biosynthesis inhibitors on prophenoloxidase activation, phagocytosis and cell spreading in *Galleria mellonella*
K. Uchida	9	Comparison of the autogenous potentials of newly-emerged anautogenous female mosquitoes
A. Wessing, K. Zierold and G. Bertram	17	Carbonic anhydrase supports electrolyte transport in *Drosophila* Malpighian tubules. Evidence by X-ray microanalysis of cryosections
D. A. Reed and N. E. Beckage	29	Inhibition of testicular growth and development in *Manduca sexta* larvae parasitized by the braconid wasp *Cotesia congregata*
S. D. Collins, A. L. Allenspach and R. E. Lee Jr.	39	Ultrastructural effects of lethal freezing on brain, muscle and Malpighian tubules from freeze-tolerant larvae of the gall fly, *Eurosta solidaginis*
B. V. Nogueira, D. P. Muehleisen, L. R. Whisenton, R. S. Gray and W. E. Bollenbacher	47	Life cycle expression of a bombyxin-like neuropeptide in the tobacco hornworm, *Manduca sexta*
A. Retnakaran, A. MacDonald, W. L. Tomkins, C. N. Davis, A. J. Brownwright and S. R. Palli	55	Ultrastructural effects of a non-steroidal ecdysone agonist, RH-5992, on the sixth instar larva of the spruce budworm, *Choristoneura fumiferana*
G. Doury, Y. Bigot and G. Periquet	69	Physiological and biochemical analysis of factors in the female venom gland and larval salivary secretions of the ectoparasitoid wasp *Eupelmus orientalis*
M. M. Rai, A. Hassanali, R. K. Saini, H. Odongo and H. Kahoro	83	Identification of components of the oviposition aggregation pheromone of the gregarious desert locust, *Schistocerca gregaria* (Forskal)
H. E. M. Dobson and Y.-S. Peng	89	Digestion of pollen components by larvae of the flower-specialist bee *Chelostoma florisomne* (Hymenoptera: Megachilidae)
V. Perić-Mataruga, D. Blagojević, M. B. Spasić, J. Ivanović and M. Janković-Hladni	101	Effect of the host plant on the antioxidative defence in the midgut of *Lymantria dispar* L. caterpillars of different population origins
	I	Contents of *Insect Biochemistry and Molecular Biology*
	V	Diary
	VII	Instructions to Authors

NUMBER 2

Review Paper **P. L. Newland and M. Burrows**	107	Processing of tactile information in neuronal networks controlling leg movements of the locust
Research Papers **R. A. Jurenka, J. S. Miller, V. K. Pedibhotla, R. L. Rana and D. Stanley-Samuleson**	125	Eicosanoids mediate microaggregation and nodulation responses to bacterial infections in black cutworms, *Agrotis ipsilon*, and true armyworms, *Pseudaletia unipuncta*
D. L. Denlinger and J. Žďárek	135	A hormone from the uterus of the tsetse fly, *Glossina morsitans*, stimulates parturition and abortion
M. Alleyne, M. A. Chappell, D. B. Gelman and N. E. Beckage	143	Effects of parasitism by the braconid wasp *Cotesia congregata* on metabolic rate in host larvae of the tobacco hornworm, *Manduca sexta*
U. Panzenböck and K. Crailsheim	155	Glycogen in honeybee queens, workers and drones (*Apis mellifera carnia* Pollm.)
F. Kawasaki and H. Kita	167	Two excitatory motoneurons differ in quantal content of their junctional potentials in abdominal muscle fibers of the cricket, *Gryllus bimaculatus*
G. Karg, D. M. Suckling and S. J. Bradley	179	Defining interaction between electroantennogram responses of *Epiphyas postvittana* (Lepidoptera: Tortricidae) to pheromone and other volatiles

F. Dittman 189 The effect of ooplasmic pH regulation on the formation of yolk spheres in the telotrophic ovariole of *Dysdercus intermedius*

D. Tanaka, T. Sakurama, K. Mitsumasu, A. Yamanaka and K. Endo 197 Separation of bombyxin from a neuropeptide of *Bombyx mori* showing summer-morph-producing hormone (SMPH) activity in the Asian comma butterfly, *Polygonia c-aureum* L.

I Contents of *Insect Biochemistry and Molecular Biology*

VII Instructions to Authors

NUMBER 3

S. N. Krishnan, Y.-A. Sun, A. Mohsenin, R. J. Wyman and G. G. Haddad 203 Behavioral and electrophysiologic responses of *Drosophila melanogaster* to prolonged periods of anoxia

J. Matsuo, S. Nakayama and H. Numata 211 Role of the corpus allatum in the control of adult diapause in the blow fly, *Protophormia terraenovae*

K. Konno, C. Hirayama and H. Shinbo 217 Glycine in digestive juice: a strategy of herbivorous insects against chemical defense of host plants

M. Koganezawa and I. Shimada 225 The effects of G protein modulators on the labellar taste receptor cells of the fleshfly (*Boettcherisca peregrina*)

T. Inoue, K. Murashima, J.-I. Azuma, A. Sugimoto and M. Slaytor 235 Cellulose and xylan utilisation in the lower termite *Reticulitermes speratus*

R. V. Barbehenn and M. M. Martin 243 Permeability of the peritrophic envelopes of herbivorous insects to dextran sulfate: a test of the polyanion exclusion hypothesis

P. Lankinen and A. Riihimaa 251 Effects of temperature on weak circadian eclosion rhythmicity in *Chymomyza costata* (Diptera: Drosophilidae)

A. Rafaeli, C. Gileadi, Fan Yongliang and Meixun Cao 261 Physiological mechanisms of pheromonostatic responses: effects of adrenergic agonists and antagonists on moth (*Helicoverpa armigera*) pheromone biosynthesis

K. Tanaka 271 Evolutionary relationship between diapause and cold hardiness in the house spider, *Achaearanea tepidariorum* (Araneae: Theridiidae)

R. W. Cole and R. I. Woodruff 275 Charge dependent distribution of endogenous proteins within vitellogenic ovarian follicles of *Actias luna*

K.-Y. Lee and D. L. Denlinger 289 A role for ecdysteroids in the induction and maintenance of the pharate first instar diapause of the gypsy moth, *Lymantria dispar*

K. Tomioka, K. Uwozumi and N. Matsumoto 297 Light cycles given during development affect freerunning period of circadian locomotor rhythm of *period* mutants in *Drosophila melanogaster*

I Editorial Announcement

III Contents of *Insect Biochemistry and Molecular Biology*

V Diary

VII Instructions to Authors

NUMBER 4

W. Engels, P. Rosenkranz, A. Adler, T. Taghizadeh, G. Lübke and W. Francke 307 Mandibular gland volatiles and their ontogenetic patterns in queen honey bees, *Apis mellifera carnica*

M. J. P. Blackford and L. Dinan 315 The effects of ingested 20-hydroxyecdysone on the larvae of *Aglais urticae*, *Inachis io, Cynthia cardui* (Lepidoptera: Nymphalidae) and *Tyria jacobaeae* (Lepidoptera: Arctiidae)

E.-C. Yang and T. Maddess 329 Orientation-sensitive neurons in the brain of the honey bee (*Apis mellifera*)

T. J. Webb, M. Major, K. M. Ellams and H. Hurd 337 The interplay between patency, microsomal Na^+/K^+ ATPase activity and juvenile hormone, in *Tenebrio molitor* parasitized by *Hymenolepis diminuta*

G. Scapigliati, M. Pecci, A. Piermattei and M. Mazzini 345 Characterization of a monoclonal antibody against a 180 kDa hemocyte polypeptide involved in cellular defence reactions of the stick insect *Bacillus rossius*

H. M. Smid, A. B. Koopmanschap, C. A. D. de Kort and H. Schooneveld 355 A peptide from the male accessory gland in *Leptinotarsa decemlineata*: purification, characterization and molecular cloning

C. A. D. de Kort, A. B. Koopmanschap and A. M. W. Vermunt 363 Influence of pyriproxyfen on the expression of haemolymph protein genes in the Colorado potato beetle, *Leptinotarsa decemlineata*

J. Cnaani, D. W. Borst, Z.-Y. Huang, G. E. Robinson and A. Hefetz 373 Caste determination in *Bombus terrestris*: differences in development and rates of JH biosynthesis between queen and worker larvae

A. Wiesner, S. Losen, P. Kopáček, C. Weise and P. Götz 383 Isolated apolipophorin III from *Galleria mellonella* stimulates the immune reactions of this insect

A. A. Hoffmann, H. Dagher, M. Hercus and D. Berrigan 393 Comparing different measures of heat resistance in selected lines of *Drosophila melanogaster*

M. Alleyne and N. E. Beckage 407 Parasitism-induced effects on host growth and metabolic efficiency in tobacco hornworm larvae parasitized by *Cotesia congregata*

I Announcement

VII Instructions to Authors

NUMBER 5

C. Gadenne, M.-C. Dufour, F. Rossignol, J.-M. Bécard and F. Couillaud 425 Occurence of non-stationary larval moults during diapause in the corn-stalk borer, *Sesamia nonagrioides* (Lepidoptera: Noctuidae)

D. Devetak and T. Amon 433 Substrate vibration sensitivity of the leg scolopidial organs in the green lacewing, *Chrysoperla carnea*

P. Desroches, N. Mandon, J. C. Baehr and J. Huignard 439 Mediation of host-plant use by a glucoside in *Callosobruchus maculatus* F. (Coleoptera: Bruchidae)

L. Frantsevich and H. Cruse 447 The stick insect, *Obrimus asperrimus* (Phasmida, Bacillidae) walking on different surfaces

M. E. Salvucci, G. R. Wolfe and D. L. Hendrix 457 Effect of sucrose concentration on carbohydrate metabolism in *Bemisia argentifolii*: biochemical mechanism and physiological role for trehalulose synthesis in the silverleaf whitefly

S. R. Marana, A. F. Ribeiro, W. R. Terra and C. Ferreira 465 Ultrastructure and secretory activity of *Abracris flavolineata* (Orthoptera: Acrididae) midguts

A. Vilcinskas, V. Matha and P. Götz 475 Inhibition of phagocytic activity of plasmatocytes isolated from *Galleria mellonella* by entomogenous fungi and their secondary metabolites

A. I. Tawfik, A. Vedrová, W. Li, F. Sehnal and D. Obeng-Ofori 485 Haemolymph ecdysteroids and the prothoracic glands in the solitary and gregarious adults of *Schistocerca gregaria*

P. D. Cooper and R. Vulcano 495 Regulation of pH in the digestive system of the cricket, *Teleogryllus commodus* Walker

I Contents of *Insect Biochemistry and Molecular Biology*

NUMBER 7

A. Van Zyl, M. C. Van der Westhuizen and T. C. de K. Van der Linde 605 Utilisation of prey by antlion larvae (Neuroptera: Myrmeleontidae) in terms of energy and nutrients

N. Gao and J. Hardie 615 Melatonin and the pea aphid, *Acrythosiphon pisum*

B. J. Sinclair and D. A. Wharton 621 Avoidance of intracellular freezing by the freezing-tolerant New Zealand alpine weta *Hemideina maori* (Orthoptera: Stenopelmatidae)

G. E. Pratt, G. C. Unnithan, K. F. Fok, N. R. Siegel and R. Feyereisen 627 Structure–activity studies reveal two allatostatin receptor types in corpora allata of *Diploptera punctata*

T. Okuda and S. Tanaka 635 An allatostatic factor and juvenile hormone synthesis by corpora allata in *Locusta migratoria*

G. F. Weirich and R. A. Bell 643 Ecdysone 20-hydroxylation and 3-epimerization in larvae of the gypsy moth, *Lymantria dispar* L.: tissue distribution and developmental changes

X. Vafopoulou and C. G. H. Steel 651 Ecdysteroidogenic action of *Bombyx* prothoracicotropic hormone and bombyxin on the prothoracic glands of *Rhodnius prolixus in vitro*

C. A. Haley, M. Fletcher and M. J. O'Donnell 657 KCl reabsorption by the lower malpighian tubule of *Rhodnius prolixus*: inhibition by Cl^- channel blockers and acetazolamide

U. Theopold and O. Schmidt 667 *Helix pomatia* lectin and annexin V, two molecular probes for insect microparticles: possible involvement in hemolymph coagulation

Y. Wang and W. H. Telfer 675 cAMP-stimulated termination of vitellogenesis in *Hyalophora cecropia*: formation of a diffusion barrier and the loss of patency

C. J. Klok and S. L. Chown 685 Critical thermal limits, temperature tolerance and water balance of a sub-Antarctic caterpillar, *Pringleophaga marioni* (Lepidoptera: Tineidae)

J. Z. Zhao and K. F. Haynes 695 Does PBAN play an alternative role of controlling pheromone emission in the cabbage looper moth, *Trichoplusia ni* (Hübner) (Lepidoptera: Noctuidae)?
